

BLADDER TANK

Tank Size 600 Gallon
Design Vertical
Design Working Pressure 175 PSIG.
Design Working Temperature -20 F to 300 F
Hydro Tested 263 PSIG.
Material SA516 GRADE 70
Flanges SA105 150#
Fittings SA105 3000#
Water Drain Valve 1" 400# Brass
Water Vent Valve 1" 400# Brass
Foam Fill Valve 1" 400# Brass
Foam Vent Valve 1" 400# Brass
Sight Glass Assembly with Fill Cup Included
Ratio Controller Pre-Piped 4" for 6% AFFF Included
Bladder Material Neoprene Rubber With
Nylon Reinforcements
Paint Specifications Red Urethane
Sand Blasting Specifications Commercial Blast
SSPC-SP 6-63
Operations and Maintenance Manual Included
Operations Tags Included
UL Listing Included
ASME Code Section VIII, Division 1 U-Stamped Included
National Board Registration Included
Water Line-Carbon Steel
Foam Concentrate Line-Brass
Water/Foam Solution-CS/Brass
Options: Upon Request
ABS Approval
Internal Coal Tar Epoxy
Pressure Relief Valve
Pressure Gauge
Ladder & Platform
Water Powered Ball Valve
